Re: Marriage License - WD CC:

● Comments:

Please find attached an information package regarding obtaining a marriage license in Alberta.

The steps required for obtaining a marriage license begin with the collection of personal information (pages attached). Next, the bride and groom must sign an oath in the presence of a commissioner for oaths (completed in our office before the wedding), then a marriage license is issued (you provide this document to the officiant for use during the ceremony). Lastly, the officiant will forward the information regarding the completed marriage to Edmonton for final registration.

Once the wedding has been officially registered we will order the certificate (style of your choosing) which will be forwarded to you.

In order to communicate with you before the marriage please provide the following:

Daytime Phone #:
Evening Phone #:
Fax #:
E-mail address:

Please attach to your faxed response copies of divorce documents, if this is applicable to your situation.

Should you have any questions, please do not hesitate to contact our office.
Thank-you.
